BACHELOR'S EDITION

BEFORE YOU DECIDE TO STUDY ABROAD — READ THIS ONCE

Have you seen students from middle-class Indian families go abroad to study with big dreams but come back halfway because of one mistake? Most of the time, it's not luck. It's the wrong decision in course, in university, or in money planning. Some choose courses too tough for them. Some pick universities they can't really afford. And even when everything else is right, they end up with a degree that holds little value in Europe or back home in India.

That's why we created the **Affordable European Universities for Indian Students – 2026** FREE PDF.

- All courses listed in this list are carefully selected to fit an annual tuition range of ₹ 2.7 to 9.2 lakh, making quality European education truly within reach.

- Courses are grouped by stream and university, with programs arranged in ascending order of annual tuition fees, most affordable first.

- All listed programs are:
  - English-taught
  - From officially recognised European Universities
  - Open to students with age gaps
  - No IELTS required

This list was prepared by Santos Global Education Provider, a study-abroad consultancy specialising in affordable European education pathways.

COUNTRIES FEATURED

🇸🇮 Slovenia, 🇱🇹 Lithuania, 🇱🇻 Latvia & 🇨🇿 Czech Republic

These countries were selected for their affordability, English-taught programs, and student-friendly visa and residence options that make European education more accessible to Indian students.

NOTES

This is the Bachelor's Edition of the Affordable European Universities for Indian Students - 2026 FREE PDF, created by Santos Global Education Provider. If you're looking for Master's programs, you can always download the other edition from our website:
